"Hold Everything!"

As Boreas Hits Town

NO PARKING FOR OLD BOREAS!
Traffic rules didn't mean a thing to the big wind and shiver man when he blew through town today. Photo shows what happened to a "No Parking" sign that got in his path while cutting capers in a downtown street. The sign was torn from its base and knocked for a perfect goal.

BLAME IT ON THE GALE!
Big plate glass window in store of Andrew Lloyd Company, No. 310 Boylston street, shattered by one of the mighty blasts that caused widespread damage throughout Greater Boston. In several other shops along Boylston street windows were blown out and signs dislodged.

AIN'T IT AWFUL, MABEL?
It was a tough day for the flappers—especially at the windy corners. Here's a pretty Boston miss doing her best to keep both feet on the ground while bound for work in a gale-swept street. It was generally conceded by the girls that the first hundred yards were the hardest.

HULTMAN TRANSFERS 70 HUB FIREMEN; CRIPPLED ENGINE CAUSES SHIFT

Boston's fire department was shaken to its depths today in the largest transfer of men it has ever had. Seventy firemen were involved.

The transfer was brought about through the crippling of the outfit group of Engine Company 27 in Charlestown, by the placing of two gallons of sulphuric acid in the gasoline tank.

Every member of that company, including Captain John Hultman and Assistant Captain John Hultman, was sent to the hospital. The engine was sent to the hospital. The engine was sent to the hospital.

HEAVY LOSS CAUSED IN PATH OF 82-MILE GALE

A howling northwest gale, the wind reaching a velocity of 82 miles an hour at times, swept all New England today, causing heavy property damage through wrecked chimneys, demolished advertising signs and chimneys and blowing down telegraph and telephone wires.

So far as known no lives were lost, although a cow was kept by the east gatekeeper on shipping that was attempting to battle the way to place of safety through glass and the pole had been snapped almost a hurricane force.

WHEELING JUMPS OVER FOURTEEN POINTS
Wheeler & Lake Erie common jumped 14 1/2 points today at 87 1/2 in trading on the New York Stock Exchange. Trading in most of the list showed a firm tone. In the closing period U. S. Steel sold at 158, unchanged.

WALL STREET attended its long, cheerful streak yesterday, prices still going up, the much advertised "clump" still available.

Testimony in Washington showing that Henry Ford is "probably the richest man in the world, worth about two billion dollars, and utterly devoted to his country" was being given by the "clump" still available.

Henry Ford was making \$100 a month not long ago. Now he is worth about two billion dollars.

Few Women Ever Got In "Chaplin Circle"

By MILDRED HARRIS

Copyright, 1930, by MILDRED HARRIS. Reproduction, whole or in part, prohibited.

Charlie Chaplin's chosen form of amusement was to gather about him the little group of friends whom he liked, and because of wealth, social position or gaiety, but for companionship, simply because he liked them.

He had very few real friends. I think he liked Douglas Fairbanks and John Barrymore best.

A few men interested as they were in Charlie's elaborate profession interested him more than any other, or any man or woman who and more really. Very, very few women ever came into that intimate little circle.

He used to say that a woman's sympathy was worth more than all the brains in the world, and that he would run a mile sooner than be associated with a girl whose brain was bigger than her heart.

"I can never make his life to see a woman on account of her intellect," he said to me once.

I know quite well that I was mentally superior to him. But I think a girl likes to feel that her husband is cleverer than she is. I could understand his thoughts and feelings.

Woods Hole, Feb. 4 (A.P.)—Two coal steamers by port up on the shores of Nauset Island today a short distance apart, one abandoned and the other so badly damaged that she probably cannot be floated. The Hulsyn Elder was abandoned but night and filled with water, but the crew remained aboard.

Captain Hulsyn and crew of 26 of the Anthony (Hulsyn), which grounded several days ago, were taken off today by the Coast Guard.

BOSTON FIREMEN SWITCHED IN RECORD SHAKEUP

Continued from First Page.

In commenting on his general order, which satisfactorily rearranged the members of Engine Co. 27 in its new positions, Commissioner Williams declared with reference to the new order: "A man who would do this sort of thing would commit murder."

MEN IN SHAKEUP

Following are the fifteen men transferred out of Engine Co. 27 to other companies, most of them on the edge of Boston, far from the Charlestown homes and families of the men:

Engineers Charles F. Elsenner, to Engine 58, Forest Hills.
Assistant Engineer Bernard J. Farrer, to Engine 48, Roslindale.
Charles F. O'Brien, to Engine 11, Hastings House Hill, Dorchester.
Francis J. Sullivan, to Engine 44, Northboro square, Dorchester.
Joseph F. Lynch, to Engine 16, Milton Lower Mills.
John J. Mahoney, to Engine 45, Roslindale.
John J. Magner, to Engine 45, Roslindale.
John E. Baldwin, to Engine 85, Cambridge street, Dorchester.
Charles F. Nolan, to Engine 29, Chestnut Hill avenue, Brighton.
John F. Starnes, to Engine 23, West Roxbury.
Paul P. Berge, to Engine 15, Matapan.
John L. Quinn, to Engine 28, Center street, Jamaica Plain.
John T. Quinn, to Engine 25, Grove Hall, Roxbury.

Thirty-seven other men, all privates with the exception of one assistant engineer, were transferred out from 27 into various companies, some going to Engine 27 to fill the vacant places caused by Commissioner Williams' shakeup. These transfers follow:

Assistant Engineer William J. Hara, from Engine 8 to Engine 27.
Edward G. Gillespie, from Ladder 1 to Engine 27.
Peter B. Stephens, from Engine 26 to Engine 27.

KILLS SLEEPING WOMAN, SELF

Continued from First Page.

Philadelphia, Feb. 4.—Mrs. Mary F. Ferman, 37, was shot to death in her home here today by a former lover as she slept beside her 15-year-old son.

The slayer, Edward Burroughs, 40, of Springfield, Mass., then killed himself as the child fled to summon his father.

Alarms, and thus depriving the citizens of its protection. This crime is one of the most atrocious on record in the history of the Boston Fire Department, and it was only on account of the efficiency of the officers of this company that it was discovered before the apparatus was called upon to respond to an alarm of fire.

The crime of wantonly and maliciously injuring the apparatus is punishable by a fine of \$500 or imprisonment for two years, and the person guilty of the crime may be ordered to furnish surety for his good behavior during any length of time which the court orders.

The press of Boston, in commenting on the crime, under date of Thursday, Feb. 3, made the following statement:

"The fighting apparatus is of no use unless it is ready at any instant for actual fire-fighting service. A fire engine is in the custody of a fire company. That company is responsible for the readiness of the engine whenever an emergency may appear."

Ten thousand gallons of sulphuric acid and found their way into the gasoline tank of the motor pump of Engine 27, and no matter whether that was done by a member of the company or by an outsider the company is responsible for the condition of its apparatus. Carelessness in guarding such apparatus cannot be excused or overlooked.

The Boston Engine Co. 27 have been given ample opportunity to vindicate the honor of this department by discovering who committed the crime, but have failed to do so. In fact the commission has received no cooperation whatever from the members of the company in his investigation to determine the guilty party."

HEAVY DAMAGE BY HIGH GALE

Continued from First Page.

Greater Boston suffered heavily, and the thousands of commuters on their way to business suffered as the wind made its way through car windows and clothing.

As the day advanced the gale appeared to be abating somewhat.

The battering New England shipping received from the gale became evident when the collier, Lemuel Burrows and Glen White from Norfolk and Baltimore poked their big hulls into the harbor. The deck rigging was heavily coated with ice from the spray that whipped Massachusetts Bay. Other craft were also ice coated.

Even with an easterly up to the gale New England to die for a short cold snap tonight with temperatures ranging from 15 to 20 degrees above zero, and then, perhaps, milder weather.

Down in Bangor it was snowing, the most being part of the storm which is sweeping out to sea, and which unleashed the terrific gale on the section of New England.

Grounded and tangled telephone wires shattered glass, broken chimneys in many sections, while in others chimneys were blown from the roofs like so many toy buildings blowing.

In East Boston from the Wood street to the Orient Heights section, where the gale had the full sweep over the Chelsea, creek, the fierce marshes and harbor, nearly two hundred chimneys were blown down.

In Winthrop, especially in the northern side of the Cottage Park district, the streets were littered with broken tree branches, ground-up telephone and radio wires in the two districts numerous stores and homes windows were blown in.

In Boston proper the gale left a trail of shattered windows, which in turn, in major cases, set off the burglar alarms, keeping the police and watchmen on the jump.

Gale Blamed for Wreck That Lands Autoist in Court

Continued from First Page.

Pittsburg, Feb. 4.—Today's trial was blamed by Judge Raymond, 24, of Hazzard street for an automobile wreck that landed him in district court clad in full evening attire.

He was charged with driving under the influence of liquor, drunkenness and driving without a license. His case was continued at the request of the police.

The trial found Judge Raymond and a girl seated in an automobile tangled up with a fence. Judge Raymond's car had been blown into the fence by the high wind.

The couple had been to a dance.

Windows in the Joy street police station were ripped out. Advertising signs were torn from their fastenings and blown into the streets.

Several of the small shops along Boylston street suffered broken windows. Windows of the Nations Casket Company on Portland street and the William Thompson Repair Shop on Friend street, were broken by the gale.

Over in Cambridge, a telegraph pole was snapped off at its base in Huron avenue near Chatter street, and it fell across the trolley wires. Fearing danger from current a squad of police edgewise kept traffic off the avenue while a hurry call was sent for the repair crew.

Dorchester appeared to get its full force of the wintry blast. A plate glass window in Finner's drug store at Dorchester and Cresson avenue, was shattered, as was one of the Dorchester Overland Company at No. 538 Washington street.

The forecast for Boston and vicinity today is: Fair and colder with occasional gusty winds, with rising temperatures and fresh northerly winds.

LIQUOR CASE DEFENDANT LOSES FIGHT OVER JUDGE

GRAVEN WILL BE RETRIED BY SAME JURIST

Efforts of Thomas C. Graven, defendant in a liquor smuggling case, to prevent Federal Judge George F. Morris of New Orleans from granting a writ of habeas corpus on Tuesday were defeated late in the U. S. district court.

Graven, through Attorney William H. Lewis, filed an affidavit of "impeachment" with the clerk of the U. S. Court here yesterday, charging Judge Morris with "bias and prejudice" to convict him of "all hazards" and "violent prejudice against all persons connected with violation of the liquor laws."

Judge Morris H. Browner, before whom the affidavit was presented today, ruled that it lacked the statutory requirements needed to deprive Judge Morris from presiding at the trial of Graven's case.

Following 21 hours' deliberation, a Federal jury assigned on the guilt or innocence of Graven and Fred J. Davis, Boston trucking proprietors, indicted with 12 others on the charge of smuggling 3,000 cases of whisky and six into Boston in May, 1932.

The jury retired to Judge Morris on Tuesday, six hours after they had taken the case, and informed the court they had agreed on a verdict of guilty but had disagreed on the amount of fine and damages on Graven.

Judge Morris refused to accept that report and sent back to the jury room for further deliberation, the outcome of which was a disagreement on both defendants, returned early Wednesday morning.

A new panel has been selected for the retrial of the case on Tuesday.

CROWD STORMS BROWNING'S OFFICE

New York, Feb. 4 (A.P.)—Edward W. "Boss" Browning, 32-year-old millionaire who is being sued for seduction and assault by his sixteen-year-old wife, Frances Browning, today was surrounded by a crowd of people in an effort to prevent an arrest.

Arthur Mofford, a reporter, filed a \$220,000 slander action against the millionaire, charging Browning slandered him by saying he had kidnapped Mary Rose, a former wife of Browning. Mofford said he merely took the girl to the office of his newspaper, where she was paid \$100 for a story.

Browning was reportedly under arrest for two hours in his office while his attorneys were arranging to post a \$10,000 bond for his appearance in Supreme Court.

Police reserves were called to disperse crowds which gathered in front of Browning's office when a rumor spread that the millionaire would be forced to spend a night in jail.

George Washington Goes to Congress

By W. E. Woodward

RIDES TO 'CONGRESS'
George Washington rode to the first Continental Congress on horseback, in company with Patrick Henry and Edmund Pendleton, two other Virginia delegates.

UNPOPULAR
The Adams cousins—John and Samuel—were delegates to the Congress, where they were shunned by many because of their leaning toward independence.

RELIEF OF HUB
At the "Congress" Colonel George Washington appeared in uniform and said he was willing to raise 1,000 men at his own expense for the relief of Boston.

PROPOSED AS LEADER
After the Battle of Bunker Hill, John Adams proposed that Washington be appointed commander-in-chief of the Continental forces.

Lisbon, Portugal, Feb. 4 (A.P.)—The revolutionaries at Oporto have begun a movement against the government of President Carnegio, who has been accused of gross mismanagement. They demand his resignation of the government and restoration of the constitution. The president has had five months, only a little more than two months, and who also holds it as a sign of war minister was given a consolidating loyal troops from Lisbon on April 10.

So far as can be learned from published order has not been disturbed. The Lisbon authorities have refused to take any action against the Oporto group, and while they do not look if serious consequences as declare the national law will be strictly enforced.

LET PYGMY DO YOUR WORK, SEE 'OLD DOC' COOK

LAVERGNE, Kan., Feb. 4 (A.P.)—Development of a race of pygmies to do the world's lightest work, is advocated by Dr. Frederick A. Cook, Arctic explorer, serving a sentence in the Federal prison here on a charge of fraud in connection with all transactions.
Dr. Cook suggests bringing large numbers of pygmies from tropical countries to the Virgin Islands for training as servants.
Dr. Cook said he conceived this plan in considering declining birth rate among highly civilized races, which he feared would result in a shortage of labor. The pygmies, he believes, could be employed in offices.

U. S. SPEEDS UP PREPAREDNESS PROGRAM

Washington, Feb. 4 (N.B.)—Thirty speeding up the fight with the preparedness bloc in Congress, the administration today speeded up plans to whip the army, navy and marine corps into shape for any emergency.
Announced by Congress of supplemental budget estimates totaling \$1,000,000, requested by President Coolidge within two days, will start the program for both the army and the marine corps. More than \$500 will be added to the nation's fighting force before July 1.
Taking advantage of the situation, the "war party" block in Congress renewed its fight to overcome the opposition of President Coolidge to the three-crop amendment to the naval supply bill. This amendment is a subject of difference between the President and Congress on the national defense. Administration leaders said there would be no compromise.
The first sign of a change on the part of the administration came when the army supply bill was passed to provide for \$18,750,000 next year, despite the President's latest message for an army of but \$11,000,000.

MANY LEADERS AT FUNERAL OF J. F. DAILY

With many city officials and members of the Knights of Columbus in attendance, funeral services were held today in the Church of Our Lady of Lourdes, Brookline avenue, Jamaica Plain, for James F. Daily, past grand knight of Shawmut Council No. 2.
Mr. Daily, who lived at No. 48 Irving street, Jamaica Plain, and who was a brother of Henry L. Daily of the Boston Evening American staff, died last Tuesday following an operation.
A solemn high mass of requiem was celebrated by the Rev. James F. Kelly, pastor of the church. The Rev. James P. Dowling was deacon and the Rev. Garrett Soudard sub-deacon.
Honorary pallbearers were William A. Brown, supreme director of the Knights of Columbus; Louis A. Watson, master of the fourth degree, K. of C.; Thomas McGrath, treasurer of the State Council; and James A. Sweeney, Boston leader of weights and measures.
The active bearers were Grand Knight Harry J. McNamara, of Shawmut Council; Past Grand Knights John A. Finn, Michael J. Kelly, pastor of the church, The Rev. James P. Dowling was deacon and the Rev. Garrett Soudard sub-deacon.
Among those present at the services were ex-Mayor James M. Curley, Past Commissioner Philip A. Chalmers, Mayor James C. Connelley, Frank J. Brennan, Fire Chief Daniel P. Sennott, Principal Assessor Neal J. Holland, former City Assessor Edward W. Pope, and Edward Collins of the Boston Globe. Burial was in Old Calvary Cemetery, where Fr. Soudard said prayers over the grave.

Handsome Garbed Women Attend Opera at Fourth Night

Seen in Boxes

By BETTY ALLEN.
THROUGH the fourth evening of the season, the Boston Civic Opera has maintained its reputation for high quality of production and for the beauty of its costumes.

At the fourth night, the opera house was filled with a large number of women, many of whom were seen in the boxes. The women were dressed in a variety of styles, from the latest fashion to the more conservative.

Among the women seen in the boxes were Mrs. Timothee Adamowska, General Clarence R. Edwards and Mrs. Edwards, and Anne Louise Lawless. The women were dressed in a variety of styles, from the latest fashion to the more conservative.

FULL HOUSE APPLAUDS OPERA NEW TO HUB

By MOSES SMITH

The affair at the Boston Opera House last night was what is called an "ovation." A full house, containing a distinguished audience, is sure to be expected during this very long run, but the added "something in the air" that was to be sensed at yesterday's performance was an opera new to Boston, "La Cenerentola."

The opera, which is the first of the season, is a masterpiece of Italian opera. It is a story of a girl who is mistreated by her stepmother and step-sisters, but who eventually wins the love of a prince. HE SHOULD have guessed so soon a time could come with a shocking difference. What had happened to break her health—to steal that glorious vitality? Gone was all her old-time charm—gone even, the ready laugh that used to be a secret friend appealing to all.

Why, then, was young Pinfish so ill—she who had been right to his young?

Most of our readers and many of our own worries are exacted and tested in the night. Almost overnight, it seems. What did we care for it then but realized the widespread and catastrophic pains in wrecking health and vigor in a striding clasp. In speeding, in long years' but to one need only from this dread disease. Kelling ALL-BRAN is guaranteed to relieve most people safely and permanently. To prevent it, if eaten regularly!

Why part brain can't do
the work

Doctors recommend ALL-BRAN because it is 100% bran. They know that it takes ALL-BRAN—not a part-bran product—to make produce results. 100% results.

Here's what happens: ALL-BRAN absorbs a great deal of moisture and carries it through the digestive system.

At the same time it gently distends the intestines—cleansing, removing poisonous wastes **naturally!** ALL-BRAN is all bran—which is why it produces complete results. In a part-bran product the quantity of bulk is so small that there is hardly enough to do even a partial job.

Good-bye to dangerous pill

What a blessing that delightful ALL-BRAN works such wonders! How different from habit-forming pills and drugs that become worthless unless the dose **be fairer?** ^{is constantly increased—}and often cause **SCHOOL INJURY.**

MIL-BRAN is delicious with milk or cream—and add fruits or honey, if you like. Let it soak a few moments in the milk to bring out all its nut-like flavor. Use it in cooking. Mixed with other cereals. In soups. Try the recipes on every package. Eat two tablespoonfuls daily—in chronic cases, with every meal.

Be sure to get genuine Kellogg's
—the original **MILK-RAP**. Don't take
chances with an inferior substitute,
which, at best, can be but partially effec-
tive. Sold by all grocers. Served at hotels,
restaurants and health spas. Made by
Kellogg's **Corn Flakes** Co.

What could be fairer?

at ALL-BRAN regularly—according to directions on the package. If it does not relieve any case of constipation safely and permanently we will refund your money. This is the strongest guarantee the KEOGG Company knows how to make. They could not afford to make it if ALL-BRAN did not produce 100% results!

WHAT HAS GONE BEFORE

WHAT HAS GONE BEFORE

Gay Monday and Christine Barbery, who are employed in the State Street booth of Johnstone Baird, Gay as a typist and Christine as telephone operator, Christine is in love with Roger Pennington and Gay is in love with Stanley Baird. Johnstone Baird's son, Christine runs around with Ivor Barclay in order to arouse Penny's jealousy. Stan's family disown him when he meets Gay. They helplessly watch his home-coming. Christine has a painful affair with a married man, who is a millionaire. Penny. They go to Europe for their honeymoon. Christine is jealous of Peggy Baird, Stan's sister, and Gay feels that Stanley has too much interest in Mimi Brooks, a girl of his own Back Bay set. Christine and Gay go to tea at a fashionable hotel, where they are met by Ivor Barclay. Gay tells her that she is completely unattractive. This will mean they are separated from their shabby apartment and have a real home. Penny comes to see Gay and she tells him he is spoiling Christine. He admits he is afraid to do otherwise for fear he would lose her. Stan tells Gay his father has offered to finance his new company. Gay worries for fear Stanley will be tempted to return to his old job. Christine and Penny have a quarrel over money. Stan returns visits Gay.

Natacha Shows Her Taste

FOR INFORMAL DINNER
Natacha Rambova, famous actress, who is appearing at the Park Theatre, is shown in informal dinner dress patterned like old Persian coat with velvet ribbon collar. Luncheon is of flaring ruby

FAVORITE IS EVENING
Natalcha Rambova in a gorgeous cyclamen crepe creation with embroidery in gold, silver, mauve and plum. Turban and slippers are in crocheted linen. Bracelet and wristwatch in emeralds and diamonds.

IN AFTERNOON GOWN
Atmosphere of the Orient is loved in this afternoon dress of black crepe, full sleeves and skirt. The turban is green and the embroidery is of pearls and silver on slipper of black satin.

EN NEGLIGEE

Richness characterizes the trappings of the costume. The neckpiece is of heavy gold cloth. The skirt is of black chiffon velvet lined with magenta crepe. The necklace of gold is of oriental design, too.

The new Ray-O-Vac 3-cell
300-foot
Focusing Spotlight
complete with batteries
\$1.95

HERE is a 300-ft. focusing spotlight that sells for little more than half the price formerly charged for a 3-cell spotlight.

It has a new and exclusive locking switch that can be removed for cleaning, repair or replacement in a moment's time, yet is as simple and convenient to work as the light switch on your wall.

The lens is of purest, clearest glass specially compounded for spotlight use. An octagonal rim prevents rolling when lying on a flat surface. The reflector has a highly polished silver surface encased so that it need never be touched when changing lamps. The head is removable, allowing use as a candle. The case is heavily nickle-plated.

This new spotlight is made by the makers of the famous Ray-O-Vac radio batteries and it is equipped with Ray-O-Vac batteries, too. These batteries have staying power.

Ray-O-Vac spotlights and batteries are sold by flashlight dealers everywhere. Be sure to ask for them by the name Ray-O-Vac.

The Biggest Moment in My Biggest Fight

By JIMMY SLATTERY

My biggest bout, unquestionably, was with Knockout Loughlin when I was a youngster and wasn't known outside my home town of Haverhill.

Loughlin was a big, powerful fighter from Haverhill. He was known for his strength and his ability to knock out his opponents. I was a young fighter from Haverhill, and I was determined to win the fight.

The fight was a hard one. Loughlin was a tough opponent, and I was determined to win. I fought hard, and I won the fight. It was the biggest moment in my biggest fight.

1. The first step is to identify the problem. In this case, the problem is that the company is not meeting its sales targets.

2. The second step is to analyze the data. This involves looking at the sales figures for each product line and identifying any trends or patterns.

3. The third step is to develop a plan. This involves setting specific goals for each product line and determining the actions that need to be taken to achieve those goals.

4. The fourth step is to implement the plan. This involves putting the plan into action and monitoring the results.

5. The fifth step is to evaluate the results. This involves comparing the actual results to the targets and determining whether the plan was successful.

6. The sixth step is to make adjustments. If the plan was not successful, it may be necessary to make adjustments to the plan and try again.

7. The seventh step is to report the results. This involves providing a summary of the results to the management and other stakeholders.

8. The eighth step is to learn from the experience. This involves reflecting on what worked well and what didn't, and using that information to improve future performance.

9. The ninth step is to communicate the results. This involves sharing the results with the sales team and other relevant parties.

10. The tenth step is to celebrate success. This involves recognizing the team's efforts and achievements, and celebrating the success of the plan.
